#### AGRICULTURAL DISPLAY-OHIO STATE FAIR.

AGRICULTURE is now commanding respect and attention from all walks of life. We are confronted with the problem of how to feed a rapidly increasing population on as rapidly a decreasing area devoted to agriculture. "Back to the dirt" is today's slogan. New enthusiasm in farming pursuits must be instilled into our people. With this in view the managers of the Ohio State Fair have redoubled efforts to make the agricultural exhibit a strong feature of the coming exhibition to be held in Columbus Sept. 5, 6, 7, 8 and 9. Their efforts are commendable, and Buckeye citizens should liberally patronize the 1910 Ohlo State Fair.

### WOMAN IN THE EXPOSITION WORLD.

DAINTY displays of woman's handiwork form a prominent exhibit feature of the Ohio State Fair. Liberal premiums are offered, and the competition is quite keen. Last year some 400 exhibitors were enrolled in the women's department, and at the coming exposition, to be held in Columbus Sept. 5, 6, 7, 8 and 9, this number will easily be surpassed. A feature of this department is the daily domestic science lectures. Monday, Sept. 5, has been designated as Women's Day at the Ohio State Fair, on which date the fair sex will be admitted for 25 cents.

> Warming Gold Dishes. Castle Klikenny is one of the oldest inhabited dwellings in the world, some of the rooms being 800 years old Among its ancient treasures is a service of gold plate. Besides the ordinary plate service, Castle Kilkenny has the whole series of gold cups used at coronation banquets down to the time of George IV. The gold of the service plates is almost without alloy, consequently very soft and easily marred; bence the plates are warmed and presumably also washed after use by a pair of tongs whose tips have been muffled in chamois leather .- London Mail.

London's Town Hall. The guildhall is an important public building in London, which may be regarded as the town ball, and is the place of assembly of several courts, as the court of common council, the court of aldermen, the chamberlain's court and a police court presided over by one of the aldermen. The construction of the building was begun in 141i. It was partially destroyed in the great fire of 1666, but was soon restored, and in 1789 it was altered to its present form.
